Workflow with output

The screenshot displays a workflow editor interface. The workflow consists of the following steps:

- When chat message received**: Triggered by a chat message.
- Read/Write Files from Disk**: Reads the file(s) from the disk.
- Extract from File**: Extracts content from the PDF.
- Basic LLM Chain**: Processes the extracted content using a Groq Chat Model.

The chat window shows the following interaction:

Chat (Session: 4d884...)

What is the company name and how many days Employees may work from home

The company name is Acme Technologies. Employees may work from home up to 3 days per week with manager approval.

Log (Clear execution)

Success in 1.288s - 277 Tokens
